(i) The type of physical restraint used shall be the least restrictive technique necessary and be discontinued as soon as the imminent danger of serious physical harm has resolved.

(ii) Physical restraint shall never be used in a manner that restricts the student's ability to breathe or communicate or harms the student.

(vi) Physical restraints shall be administered only by staff who have received training in accordance with paragraph (7) of this subdivision.

(vii) Following a physical restraint, if an injury has been sustained or believed to have been sustained, the school nurse, pursuant to section 902(2)(b) of the Education Law or other medical personnel (i.e., physician, physician assistant, or a nurse practitioner) shall evaluate the student to determine and document if any injuries were sustained during the incident.

When the student's parent or person in parental relation cannot be contacted, after reasonable attempts are made, the school principal or building administrator shall record such attempts. For students with disabilities, the school principal or building administrator shall report such attempts to the student's committee on preschool special education or committee on special education. Such notification shall offer the parent the opportunity to meet regarding the incident; and

(ii) provide the parent or person in parental relation to the student a copy of the documentation of the incident within three school days of the use of timeout or a physical restraint.

(4) Documentation. (i) The school shall maintain documentation of each incident involving the use of timeout, including timeout used in conjunction with a student's

(a) the circumstances leading to the use of timeout and/or physical restraint;

(b) the positive, proactive intervention strategies that were utilized prior to the use of timeout and/or physical restraint; and

(c) planning for the prevention and reduction of the future need for timeout and/or physical restraint with the student including, if applicable, whether a referral should be made for special education programs and/or other support services or, for a student with a disability, whether a referral for review of the student's individualized education program and/or behavioral intervention plan is needed; and
